

Northland With Maori Kaumatua (Elder)

This tour is very special as you will be personally guided by one of the elders of Maori tribes. This tour is meant for travelers that want to see not only numerous natural wonders that New Zealand has to offer but also touch upon its rich history and culture of pre-European people who were first to discover Aotearoa (Land of Long White Cloud) in the 10th century AD. The tour can start anywhere in the North Island, where we will pick you up and take you to the subtropical north of the North Island - the land of legends, chiefs, battles and mysteries still to be uncovered. You will visit tribal Marae and be welcomed there as a chief and you will learn the ways of Maoris through centuries, what is important to them as people and become part of their Whanau (family). You will see incredible giant trees that started to grow when dinosaurs were still roaming the Earth. We will take you to the very northern cape of the North Island - cape Reinga - where the spirits depart back to the legendary land of Hawaiki. Set in the most gorgeous landscapes imaginable Northland is the region of pristine beaches, lush jungle, crystal clear water falls and warm smiling people. Come and explore!
